ABOUT US

“A home is not made by those who built it but by those who live in it.”

André Jordan

Created in 1990, part of the André Jordan Group, Planbelas Real State Company, is the manager and developer of the Belas Clube de Campo property.

Vision, Mission and Values
Belas Clube de Campo’s long term vision and principles of excellence promote a healthy and sustainable environment.

Planbelas is committed to managing property development in accordance with sustainability principles. Evaluation mechanisms have been implemented to track its economic, environmental and social performance.

We privilege the creation of value for our property owners and residents, as well as exceeding our visitor’s and user’s expectations.

Trust, responsibility, integrity, transparency and excellence in both innovation and sustainability are the values reflected in all of the André Jordan Group’s projects.

The André Jordan Group
Born in 1940, in Rio de Janeiro, the André Jordan Group introduced in the market a modern concept of real estate.

Another great example is the Vilamoura XXI that transformed **Vilamoura** into the largest and best equipped tourist resort in Europe. A case study for the Urban Land Institute and several international universities.

In 1970, Portugal, a historical landmark changed the Portuguese and international tourism industry – the **Quinta do Lago** development. The first remarkable tribute to high-quality urban planning in Algarve that would level-up this industry forever.

At Belas Clube de Campo, a residential community launched in 1997, André Jordan and his team used all their previous experience in creating and developing high-end urbanism projects, making this enterprise another international success.
